Multi-Year Grant Application Information

Please review this information prior to submitting an application

Through these Engaging Communities (EC) multi-year grants, UMFNE seeks to support missional partnerships (new and established) and the sharing of resources between churches, community partners, and the Foundation to address the most important challenges within a church's ministry context. These missional challenges could include issues such as the opioid crisis, social justice, climate change, or other community concerns.

- Salary and honorariums cannot be covered by this grant.
- All applications will be reviewed by the Foundation's Grants Ministry Committee. Using a scoring rubric, the Committee will evaluate all applications and award grants by the end of July. A scoring rubric is shared for your reference. The Foundation may reach out seeking additional information about an application. Please be sure to include up-to-date information in the grant application.
- Please do due diligence concerning costs, facts, and feasibility when writing your grant request as re-purposing of grants is seldom approved.
- Reporting, including conversations and written annual reports, on the progress of the granted program will be required as a condition to releasing the next year's funding.
- If there are any questions about the process or possible program consideration, please contact [David Abbott](#), Director of Stewardship.
